BECAUSE SO MUCH IS RIDING ON YOUR EMPLOYEES — YOU WANT TO RECRUIT THE VERY BEST

RESPIRATORY CARE & AARC Times

IS WHERE YOU FIND THEM

2005 RECRUITMENT ADVERTISING MEDIA KIT

AARC Publications Give Your Recruitment Advertising a One-Two Punch Every Month

Because so much is riding on your employees, you want the best candidates for your job openings. That is why Where you look for candidates, How you hire, and Who you hire are the key elements in successful respiratory care recruitment. Look in the wrong place and How you hire might not be enough to ensure that Who you hire is a highly skilled respiratory therapist.

AARC Members save money with lower recruitment advertising rates than nonmembers.

Everyone is looking for respiratory therapists, but there is only one place to find professional, quality, and highly skilled respiratory therapists. You’ll find them reading AARC Times and RESPIRATORY CARE. Unlike other recruitment magazines, our readers have demonstrated their professionalism by joining the American Association for Respiratory Care. Remember, looking in the right place helps you find the who that you hire is a highly skilled respiratory therapist.

Immediate Internet exposure with every publication insertion.

So, look to the AARC to improve your probability of a successful hiring.
AARC Times and Respiratory Care  There is a Difference

Members have a choice and so do you. Most members elect to receive both AARC Times and Respiratory Care. However, many choose to receive only one magazine and that gives you two distinct audiences for your recruitment advertising. Respiratory Care delivers more library subscriptions whose readers are nonsubscribers.

**Respiratory Care**

For the past 50 years, the respiratory community has looked to Respiratory Care Journal for the latest and most trusted reviews and original research papers in respiratory health. The Journal is not primarily focused on research into the nature of diseases, but rather on topics for the clinician participating in the evaluation and care of patients with respiratory problems, particularly areas involving technology. Over the years the central feature of the Journal has been technology, including mechanical ventilation, artificial airways, aerosols, oxygen therapy, respiratory monitoring, and pulmonary diagnostics - as applied to the respiratory system.

Respiratory Care articles are unique, providing practical help not found in any other journal. The author list for these features reads like a “Who’s Who” of respiratory care and pulmonary medicine of the last 20 years, and includes virtually all of the “main players” in the subject areas discussed.

**AARC Times**

AARC Times is the only news and feature magazine mailed to the members of the American Association for Respiratory Care. It is written for the cardiopulmonary clinician in all care settings including acute care, subacute care, postacute care, and home care. In each care setting, AARC Times is the only publication that fully covers the respiratory profession from AARC news to clinical perspectives to regulatory initiatives in Washington with the “inside scoop.” AARC Times is more than an association magazine. Seventy percent (70%) of its pages cover clinical topics and features, professional and management articles, regulatory and legislative updates, health care news, industry news, and career guidance.

Many AARC Times and Respiratory Care subscribers have been reading the AARC Times magazine for more than 15 years. Long-time subscribers are more likely to have the experience and expertise that you need in your facility.
